# HEALTH NUGGET

## THE IMPORTANCE OF EYE HEALTH

About 11 million Americans over age 12 need vision correction.

Eye diseases are common and can go unnoticed for a long period and may even have no symptoms at first.

Eye exams at every age and life stage can help to keep your vision strong.

Early treatment can prevent common eye disease which can lead to permanent vision loss or blindness can be due to cataracts, diabetic retinopathy, glaucoma and age related macular degeneration.

Go see your eye doctor for an eye exam and treatment to take care of your vision.
